

Symposium: Educational Neuroscience

A symposium to celebrate the start of Leiden Institute for Brain and Cognition - *Junior* at Leiden University

Special guest: Usha Goswami, University of Cambridge

Date: Monday, February 15, 2010

Time: 10:00 – 15:30 (coffee from 9:30)

Location: Poortgebouw, Rijnsburgerweg 10, Leiden

Registration: Send an e-mail with your name and affiliation to:

kuilemfter@fsw.leidenuniv.nl

Registration deadline: February 8, 2010 (There is no registration fee, but registration is obligatory)

Educational neuroscience is a rapidly evolving field that attempts to connect current cognitive neuroscience findings to classroom applications. Despite great advances, this approach also has several important challenges, and some argue that the development of brain-based learning packages is premature. In this symposium, we will address these questions by data presentations and theoretical discussions. One of the key questions will be whether and how cognitive neuroscience can benefit education programs.

These and other questions will be addressed in the symposium Educational Neuroscience with guest speakers:

- Usha Goswami, University of Cambridge
- Janet van Hell, Nijmegen University
- Paul Leseman, Utrecht University
- Ludo Verhoeven, Nijmegen University
- Jeanet Bus, Leiden University
- Paul van den Broek, Leiden University/University of Minnesota

We hope to see you in Leiden!

Organizers:

Paul van den Broek (convenor)

Hanna Swaab

Michiel Westenberg

Eveline Crone
